WORK EXPERIENCE

Cloud & Automation Specialist (Personal Project) | North Shore, Laie, Hawaii | June 2026 – Present

- Designed and deployed n8n automation workflows for 3 hospitality and service industry clients (restaurant, lawn care, house cleaning, Airbnb hosting), processing monthly leads and automating customer communication workflows.
- Automated booking confirmations, customer inquiry responses, and scheduling reminders using n8n and Firebase/Supabase, reducing manual email work, and generating leads monthly across all clients.
- Optimized Airbnb property listing through comprehensive SEO/SEM strategy (keyword research, content optimization, Google Ads management), increasing organic traffic by 30% and booking inquiries by 40%.

Video Producer(Part-time) | Polynesian Cultural Center | June 2026 – August 2026

- Designed and produced company-wide training video content for internal employee platform, creating 15 completed training videos documenting all employee roles, responsibilities, and operational procedures.
- Currently producing 30 additional training modules in the editing phase with B-roll expansion, demonstrating commitment to comprehensive employee onboarding and skills development.
- Co-managed 100% of the video production pipeline: conceptualization/storyboarding, scripting, voiceover recording, on-location shooting, post-production editing, and final delivery

Process & Systems Analyst | Polynesian Cultural Center | June 2026 – August 2026

- Developing and maintaining internal training platform (Wix-based website) hosting all employee training videos, role documentation, and operational procedures for organizational knowledge management.
- Building additional website components using HTML/CSS to extend platform functionality and improve user experience for employee access to training materials and operational information.
- Monitoring PowerBI dashboards and Centerline POS system operations to track real-time operational metrics, identify bottlenecks, and recommend process improvements for dining services.
- Supporting staff training on digital systems and platforms, improving system adoption rates and reducing support tickets through clear documentation and hands-on guidance.

Website & Content Developer | Polynesian Cultural Center | March – May 2026

- Designed and deployed a company--wide web training hub to centralize all employee training content, role documentation, and standard operating procedures.
- Produced initial training videos documenting all employee roles and responsibilities, establishing foundation for comprehensive employee onboarding and skills development program.

Server (Part-Time) | Polynesian Cultural Center, Laie, Hawaii | May 2023 – June 2026

- Delivering exceptional hospitality service during luau events, building guest relationships, and maintaining high service standards for guests from diverse backgrounds.

Senior Recruiter – Talent Acquisition Manager | *M-Commerce Group of Companies - Tiktok Live Shops, Manila, Philippines* | July 2022 – April 2023

- Led large-scale end-to-end recruitment spanning four companies, successfully recruiting and onboarding 200+ professionals across TikTok Live selling, content creation, operations, and backend teams.
- Designed and implemented comprehensive onboarding, training, and engagement programs, improving first-year retention by 35% and reducing team turnover from 28% to 18% annually.
- Managed employee timekeeping systems, compliance documentation, and performance tracking across 400+ personnel, ensuring 100% payroll accuracy and zero compliance violations.

Executive & Media Operations Assistant | *Supcart Trading Corporation* | May 2021 – April 2022

- Coordinated end-to-end production logistics for 50+ shoots and events annually, managing equipment procurement, setup, scheduling, and on-site technical support to ensure successful delivery.

- Collaborated with production teams to streamline workflows, reducing event setup time by 25% and improving overall production efficiency through optimized logistics planning.

Technician – Hardware & Software Support | *Redmi-Apple Repair Shop, Philippines* | November 2016 – December 2018

- Diagnosed and resolved hardware and software issues on phones, laptops, and personal computers
- Troubleshoot complex issues including battery degradation, screen damage, data recovery, OS crashes, and malware infections, achieving 94% customer satisfaction rating.

PORTFOLIO & PROJECTS

DEPLOYED PRODUCTION PROJECTS:

North Shore Property Care (Property Management Platform)

Full-stack property management web application.

PCC Seating Management (Venue Management System)

Seating coordination and guest management system for high-volume dining operations.

PCC Guest Companion (Guest Experience App)

Multi-language(10) Guest engagement and information platform.

Teleprompt-io (AI-Powered Teleprompter)

Teleprompter application for content creators and presenters.

Celebration App - Restaurant (Restaurant Management)
